JAFORD · Technical profile

Gaskets & seals

Gaskets & seals

Gaskets and seals for fuel-cell and electrolyzer assemblies. Geometry, thickness and material compatibility are considered together with the cell’s compression and sealing requirements.

Catalog information

Type	Gaskets & seals
Application / scope	Gaskets and seals for fuel-cell and electrolyzer assemblies. Geometry, thickness and material compatibility are considered together with the cell’s compression and sealing requirements.

Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

Reference component	Gasket-framed 7-layer MEA
Reference role	Cell framing and sealing
