JAFORD · Technical profile

COFs

COF-5

Ordered porous organic framework research

Catalog information

Material / type	COF-5
Application	Ordered porous organic framework research

Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

Linkage	Boronate ester
Building blocks	1,4-Benzenediboronic acid and hexahydroxytriphenylene
Dimensionality	2D
