JAFORD · Technical profile

COFs

TpPa-1

Porous frameworks for separation and functionalization research

Catalog information

Material / type	TpPa-1
Application	Porous frameworks for separation and functionalization research

Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

Linkage	Beta-ketoenamine
Building blocks	Triformylphloroglucinol and p-phenylenediamine
Dimensionality	2D
