JAFORD · Technical profile

Functional polymers

Poly(acrylic acid) (PAA)

Carboxyl-functional binders, hydrogels and surface modification

Catalog information

Material / type	Poly(acrylic acid) (PAA)
Application	Carboxyl-functional binders, hydrogels and surface modification

Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

Functional group	Carboxylic acid
CAS identity	9003-01-4

Source: Sigma-Aldrich — poly(acrylic acid)
