JAFORD · Technical profile

Functional polymers

Poly(vinylidene fluoride) (PVDF)

Membrane, coating and electrode-binder development

Catalog information

Material / type	Poly(vinylidene fluoride) (PVDF)
Application	Membrane, coating and electrode-binder development

Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

Polymer class	Fluoropolymer
Material form	Polymer / membrane precursor

Source: Sigma-Aldrich — PVDF membrane material
