JAFORD · Technical profile

# MOFs

## HKUST-1 (Cu-BTC)

Gas adsorption and coordination-framework research

## Catalog information

| | |
|---|---|
| Material / type | HKUST-1 (Cu-BTC) |
| Application | Gas adsorption and coordination-framework research |

## Reference specification

Published reference information, not JAFORD batch measurements or guaranteed acceptance limits. Analog specifications do not establish the formulation or performance of a different model.

| | |
|---|---|
| Metal node | Copper |
| Linker | Benzene-1,3,5-tricarboxylate |
| Alias | MOF-199 / Cu-BTC |
