JAFORD · Technical profile

Scale-up sintering & heat treatment

Scale-up sintering & heat treatment

We match your material and thermal process with suitable partner furnaces and process expertise to evaluate kilogram-scale sintering and heat treatment beyond the laboratory.

Catalog information

Type	Scale-up sintering & heat treatment
Application / scope	We match your material and thermal process with suitable partner furnaces and process expertise to evaluate kilogram-scale sintering and heat treatment beyond the laboratory.

Development / testing scope

Review of feedstock, atmosphere, temperature profile and batch handling.

Coordination of suitable partner processing capacity.

Catalog facts: owner-supplied JAFORD product and capability brief. A technical profile is not a batch certificate, safety data sheet or measured performance report.
