JAFORD · Technical profile

# Spectroscopy: XPS, FTIR, Raman & NMR

## Spectroscopy: XPS, FTIR, Raman & NMR

Investigate surface chemistry and molecular features using suitable XPS, FTIR, Raman or NMR methods. The analytical approach, sample preparation and interpretation scope are agreed with specialist laboratories for each material.

## Catalog information

| | |
|---|---|
| Type | Spectroscopy: XPS, FTIR, Raman & NMR |
| Application / scope | Investigate surface chemistry and molecular features using suitable XPS, FTIR, Raman or NMR methods. The analytical approach, sample preparation and interpretation scope are agreed with specialist laboratories for each material. |

Catalog facts: owner-supplied JAFORD product and capability brief. A technical profile is not a batch certificate, safety data sheet or measured performance report.
